

SRAJAL PURI

AI / Generative AI / Full-Stack Engineer

Pune, Maharashtra, India

Email: Srajalpuri55@gmail.com

GitHub: github.com/srajal5

LinkedIn: linkedin.com/in/srajalpuri

EDUCATION

Master of Computer Applications (MCA)

CGPA: 8.95

Aug 2025 – Present

Dr. D. Y. Patil School of Science and Technology

Pune, India

Specializing in Artificial Intelligence, Generative AI, and Scalable Full-Stack Engineering.

FLAGSHIP ENGINEERING PROJECTS

IntelliForge — High-Throughput AI Intelligence Pipeline

2026

Python, AsyncIO, MongoDB, OpenRouter LLMs, REST APIs

github.com/srajal5/IntelliForge

- Architected an asynchronous Python pipeline ingesting 5,400+ intelligence records across fragmented multi-source streams.
- Implemented entity resolution, deduplication, 24-hour freshness checks, checkpointing, and robust rate-limited retries.
- Orchestrated OpenRouter LLMs with structured validation, automated chunking, fallback handling, and credential redaction.
- Achieved 100% test reliability with 363/363 passing unit/integration tests and zero SAST security vulnerabilities.

Sentinel AI — Real-Time CCTV Surveillance Platform

2025

FastAPI, YOLOv8, OpenCV, React.js, MongoDB, Tailwind CSS

github.com/srajal5

- Engineered a real-time computer vision platform detecting road accidents and violence incidents directly from CCTV feeds.
- Integrated YOLOv8 object detection with an OpenCV video ingestion pipeline for low-latency visual preprocessing.
- Built FastAPI backend with MongoDB incident persistence, automated emergency alerting, and response coordination.
- Designed a responsive telemetry dashboard displaying live incident tracking and spatial analytics.

NutriTrackAI — Conversational Nutrition & Fitness Intelligence

2026

React, Node.js, Express.js, MongoDB, OpenRouter, Recharts

nutritrack-eight.vercel.app

- Built an intelligent conversational nutrition coach converting natural language meal logs into structured macronutrient records.
- Integrated OpenRouter LLM endpoints with MongoDB Atlas storage, statistical charts, and reactive user progress analytics.

PROFESSIONAL EXPERIENCE

Web Development Intern — Orinson Technologies

Jul 2024 – Aug 2024

React.js, JavaScript, Tailwind CSS, REST APIs

Pune, India

- Engineered interactive web application interfaces with React.js supporting 800+ active users.
- Delivered a 30% improvement in mobile UI usability and responsiveness through component modularization.

Google Cloud Generative AI Virtual Internship

Apr 2024 – Jun 2024

Google Cloud Platform, Vertex AI, Large Language Models

Virtual

- Implemented Generative AI workflows, prompt design patterns, and foundational model deployment on Google Cloud.

TECHNICAL COMPETENCIES

Languages:	Python, JavaScript / TypeScript, Java, SQL
AI & ML:	Generative AI, LLM APIs (OpenRouter), YOLOv8, OpenCV, Machine Learning, PyTorch
Full-Stack & APIs:	FastAPI, React.js, Node.js, Express.js, Tailwind CSS, RESTful API Architecture
Databases & Cloud:	MongoDB, Google Cloud Platform (Vertex AI), MySQL, PostgreSQL, Supabase
Tools & DevOps:	Git, GitHub, Postman, Linux, AsyncIO, CI/CD Workflows
